 See little map. (I am where the dot is)

With a car you go over the Ring-south towards Almere/ Amersfoort. Don't take exit Diemen, but continue on the road towards Almere. The road splits, and just after that there is an exit Diemen Noord.

Take that one, and drive until you see an intersection, go right (under the highway) and immediately left. (you enter the suburb)
 Go right at the end of this road. At the end of this road is Zeezicht
 Take the second building, I am on sixth floor.

Coming over the A1 from Amersfoort or Almere: take the exit Diemen (nr 2) and then go right, and directly left, and follow the road that goes parallel to highway and with a lake, the fields and then houses to the right. Continue until you see the road going under the highway, and just before that happens go right, right again at the end of this street and at the end of this you are at my place.

Train:

(details see also www.ns.nl and www.9292ov.nl for time tables of Train and other public transport)

There are two train stations in Diemen ! Do not take station Diemen Zuid (or you should take a bus, number 44). Take station Diemen from Amsterdam centraal or Muiderpoort. This is a stoptrain, leaving Amsterdam at *.00, *.15, *.30 and *.45. It takes ten minutes. And after that there is a 15 minutes walk. When you get out of the station turn right and walk the Ouddiemerlaan. After a while it goes under the highway and then changes into a bike track. Keep following it until you cross Zeezicht. Go right there and the second apartment building is where I live on the 6th floor.

If you go too far you end up at the water (Amsterdam-Rijn Kanaal). Then just go back and directly left.

With a bike:

Go toward the Schellingwouderbrug (over the Zeeburgerdijk),
 Cross the road and go left, past the open air swimming pool and Sports Center (don't go on the bridge)

Go right at the end where you see the dike
 Follow that road all the way, go under the highway and the new bridge
 Go the first road right
 First left, and you are on Zeezicht, take the second building.
